From the Standing Committee on Fire Department—

Whereas, pursuant to motion adopted by the City Council February 19, 1929, your Committee was authorized to investigate the feasibility of the Fire Department building its own pumping engines at the department repair shop, rather than purchase such engines from fire apparatus companies, and whereas as a result of such investigation by Chief C. W. Ringer, the Master Mechanic, and the Superintendent of Instruction of the Fire Department, it has been found that a fire engine can be built at the department repair shop which will be equal if not superior in efficiency to a purchased product, and at a cost of approximately two-thirds of the price charged by apparatus companies, your Committee respectfully recommend that the City Purchasing Agent be and is hereby authorized and directed to purchase material, such as engine, axles, springs, etc., as ordered and specified by the Fire Department, necessary for the construction of such pumping engines, the total cost of such material for each engine to be approximately $6,500.00, to be charged to the Fire Department Regular Permanent Improvement Fund.

1. Lots 211 and 212, Auditor's Subdivision No. 149, Hennepin County, Minnesota, conveyed to the City of Minneapolis by Independent Consolidated School District No. 143, Hennepin County, Minnesota. The consideration for this deed was the assumption by the City of Minneapolis of the obligation to pay outstanding school bonds of said school district theretofore issued in the total amount of $233,000.

2. Lots 10 to 21, inclusive, in blocl 4, in Morris Park Second Addition to Minneapolis; and the east 2 acres of the south 8 acres of the northwest quarter of the southeast quarter in Section 24, Township 28, Range 24, in the County of Hennepin, State of Minnesota, conveyed to the City of Minneapolis is the matter of such annexation by Independent School District No. 109 of Hennepin County, Minnesota. The consideration for such conveyance was the assumption by the City of Minneapolis of the obligation to pay outstanding school bonds of said school district theretofore issued to the total amount of $125,000.

In view of the fact that these properties were originally acquired for school purposes and were used at the time of such annexation and are now used by the Board of Education of the City of Minneapolis for school purposes, and the Board of Education is prohibited by the City charter from erecting any building upon lands to which it has not the title in

fee simple, and the title in fee to most of the school properties in the City is vested in the school board, we deem it advisable that the title to the school properties hereinabove mentioned and described be conveyed to the school board, and we hereby recommend that by the adoption of this report the Mayor, City Comptroller and City Clerk be authorized to execute and deliver on behalf of the City of Minneapolis a quit-claim deed conveying the above described school lands and properties to the Board of Education of the City of Minneapolis, for a nominal consideration of one dollar.
